

Dear Aaron Manor Family and Friends,

Due to the current health pandemic, we find it necessary to restrict the process of the facility receiving food items into the facility. As a blanket precaution we find it necessary to no longer accept foods brought in from home. This includes all homemade foods and foods which may be re packaged at home. We will accept manufactured packaged foods. As with all items for residents, these are to be left on the table at the front door.

We are allowing residents and staff to receive foods from the following local retail centers. Wegman's, Tops, Salvatore's, Leos and Savoa Bakeries. We have communicated with these established vendors and know that their sanitation and practices meet the guidelines set forth by the CDC for food preparation and Staff protection and safety.

Please coordinate with Penny Macartney for staff food deliveries to establish a schedule of days and times. This will ensure we do not have more foods than necessary on any given day.
